ABOUT US

Unlike a number of other service providers TICA SMS GATEWAY has been designed as a complete platform allowing users to send SMS text messages from any computer anywhere in the world giving them the ability to have their full contact list with them at all times. TICA SMS GATEWAY provides a connection between the world of text messaging and the outside world.

In this modern day and age, mobile phones are no longer seen as a luxury but a necessity. As text messages have become a modern day form of communication you now have the ability to contact clients or potential clients with the click of a mouse.

Some businesses communicate with customers via email then wait for them to receive the message on their computer, which may be lost in email filters or cyberspace. TICA SMS GATEWAY is a great way to deliver your message instantly.

TICA SMS GATEWAY can be used for advertising, promotions, news alerts, work place updates, friendly reminders, brand awareness campaigns and more. It is a far more cost effective method than the traditional forms of communication when you consider postage, time, paper, printing and envelope costs.

Consider securing a new listing and marketing it immediately to qualified purchasers. For example:

REAL ESTATE AGENT

New Listing! Exclusive property in "SUBURB".
4 br, 2 stry, 4 bath + pool. Price range \$900K.
Call "YOUR NAME" from "OFFICE NAME".
To opt out text back STOP.

You can instantly notify 1 to 10,000+ contacts within minutes!

TICA SMS GATEWAY proudly supports Australian companies. No messages are sent through International service providers, only through Australian Telco's being Telstra, Vodafone and Optus.
